

## RELATED BOOKS FROM E & FN SPON

Buried Structures: Static and Dynamic Strength  
P.S. Bulson

Engineering the Channel Tunnel  
Edited by C. Kirkland

High Altitude Medicine and Physiology  
M.P. Ward, J.S. Milledge and J.B. West

The Human Side of Safety  
E. McKenna and I. Glendon

Pile Design and Construction Practice  
M.R. Tomlinson

Pipejacking and Microtunnelling  
J.C. Thomson

Risk Analysis for Process Plant, Pipelines and Transport  
Edited by J.R. Taylor

Safety Analysis: Principles and Practice in Occupational Safety  
L. Harms-Ringdahl

Soil-Structure Interaction: Numerical Analysis and Modelling  
Edited by J.W. Bull

The Stability of Slopes  
E.N. Bromhead

Tunnelling '94  
The Institution of Mining and Metallurgy

Tunnelling: Design, Stability and Construction  
B.N. Whittaker and R.C. Firth

Underground Excavations in Rock  
E. Hoek and E.T. Brown

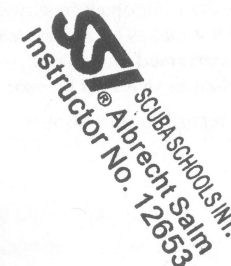

Underwater Inspection  
M.R. Bayliss, D. Short and M. Bax

For details of these and other titles, contact the Promotions Department, E & FN Spon,

## Contents

Preface	xi
Acknowledgements	xv
The conference sponsors	xvii
Opening address	1
Viscount Ullswater	

### PART ONE KEYNOTE LECTURES

1 An engineer's perspective on legislative changes	7
J. M. Anderson	
Discussion following Mr Anderson's lecture	14
2 Bone necrosis	16
D.N. Walder	
3 Decompression illness	29
D.H. Elliott	

### PART TWO CONSTRUCTION PROJECTS

4 Controlled caisson sinking – design and performance on Contract 4 of the Greater Cairo Wastewater Project	41
J.L. Vincett and F.N. Rowley	
5 The use of compressed air at Lake Lothing, Lowestoft	61
J.G. Campbell, D.R. Gutteridge and A.P. Smith	
Discussion on Session 1: Construction Projects – I	73
6 Compressed air tunnelling for the Hong Kong Mass Transit Railway	75
J.G. Campbell and D.R. Gutteridge	
7 Use of compressed air for shaft sinking and tunnelling on Contracts 3, 12 and 12/5A of the Greater Cairo Wastewater Project, Egypt	91
D.J. Court	
8 Oakwood Beach Interceptor Sewer: a compressed air tunnel case history	118
R.J. Angarola, S.K. Jain and C.C. Chang	
Discussion on Session 2: Construction Projects – II	133

**PART THREE BONE NECROSIS**

- 9 A preliminary survey of quantitative risk factors for bone necrosis in British compressed-air workers  
A. Evans 139
- 10 The role of intramedullary pressure in hyperbaric osteonecrosis  
E.H. Lanphier, C.E. Lehner and S.E. Lemos 148
- 11 Optimum schedules for caisson decompression  
E.P. Kindwall 156
- 12 Early pathogenesis of hyperbaric osteonecrosis  
C.E. Lehner, T.F. Lin, E.H. Lanphier, M.A. Wilson, R. Dueland and P.R. Dubielzig 172
- 13 Report of seventeen cases with delayed occurrence of dysbaric osteonecrosis  
L.-D. Zhang, J.-F. Kang and H. Zhang 188
- Discussion on Session 3: Bone Necrosis 193
- PART FOUR ENGINEERING DESIGN**
- 14 Compressed air tunnelling between Somerset Station and Newton Station, Singapore  
A.R. Gaba and D.B. Parkes 199
- 15 Estimation of compressed air losses  
R.S. Hoard and G.P. Gittoes 224
- 16 Tunnelling in compressed air – necessity or option?  
G.B. Shutter 245
- 17 Modelling compressed air losses from a tunnel in sand  
C.P.M. Snee 250
- 18 Developments in low-pressure compressed air equipment (Abstract only)  
R.T. Slocombe 261
- Discussion on Session 4: Engineering Design 262
- PART FIVE OCCUPATIONAL HEALTH AND SAFETY** 265
- 19 Medical aspects of compressed air tunnelling – the Singapore experience  
J. How, A. Vijayan and T.M. Wong 267

- 20 Thermal stress in compressed air work  
K.C. Parsons 294
- 21 Oxygen decompression for tunnel workers in Brazil – the São Paulo Subway construction experience  
I.J. Ribeiro 313
- 22 Decompression in tunnel construction using the Hydroshield process  
M. Ruëgger, A.A. Bühlmann and E. Völlm 319
- 23 The effect of pressure on portable gas monitoring equipment used in tunnelling operations  
D.W. Dabill and P.T. Walsh 328
- Discussion on Session 5: Occupational Health and Safety 344
- PART SIX DECOMPRESSION ILLNESS**
- 24 Statistical investigation of working pressure and DCS for compressed-air workers  
Y. Mano, M. Shibayama, N. Yamami, T. Nakayama and M. Kawashima 349
- 25 Analysis of decompression sickness and bubble appearance rates on a caisson project – effects of working shift pattern and post-decompression oxygen breathing  
I. Nashimoto, Y. Gotoh, K. Kobayashi, M. Nodera, R. Araki and F. Eda 360
- 26 Review of the neuropathological effects of decompression sickness in animals and man  
A.C. Palmer 366
- 27 A descriptive approach to the decompression illnesses  
J.J.W. Sykes, D.J. Smith and T.J.R. Francis 381
- Discussion on Session 6: Decompression Illness 385
- PART SEVEN DECOMPRESSION ILLNESS AND CLINICAL PRACTICE**
- 28 The technique of decanting in compressed air work  
M.J. Catton 389

29	Observations of decompression sickness and effects of working conditions in two caissons in Bremen K.H. Männecke, K.H. Dreyer and D. Peusch-Dreyer	408
30	Memory and personality of caisson workers with a history of decompression illness J. Leach, J.D. King, P.E. Morris and J. Rawlins	413
31	Blood changes associated with decompression and their possible clinical significance R.B. Philp	423
	Discussion on Session 7: Decompression Illness and Clinical Practice	436
<b>PART EIGHT CODES AND REGULATIONS</b>		
32	CEN standardisation – air locks for tunnelling work safety requirements M. Bandmann	445
33	Are the German regulations for compressed air work safe? I. Holthaus	450
34	Some medico-legal aspects of modern work in compressed air F.B. Wright and L. Marks	456
	Discussion on Session 8: Codes and Regulations	479
35	French regulations 1992 for hyperbaric works J.C. Le Péchon and J.L. Pasquier	483
36	Comparison and prediction of decompression sickness rates F.M. Jardine	493
<b>PART NINE DEVELOPING TECHNOLOGIES</b>		
37	Decompression options for tunnel work at more than 3 bars (gauge) pressure R.W. Hamilton, J. Vollbrandt, M. Heineke and G. Luther	509
38	Remotely controlled caisson method and its maintenance T. Hirata, K. Takano, Y. Gotoh, I. Nashimoto and W. Sterk	519
39	Oxygen decompression in tunnelling J.C. Le Péchon	529

40	Procedures for safe working at high pressures in a TBM chamber using special breathing gas mixtures G. Luther, R.W. Hamilton, M. Heineke, G.A. Nietsch and J. Vollbrandt	539
41	Unmanned excavation systems in pneumatic caissons S. Shiraishi	551
42	Application of deep-sea diving technology to pneumatic works in very deep caissons S. Oda, J. Takeuchi, M. Ishii and Y. Mano	562
	Discussion on Session 9: Developing Technologies	578
<b>PART TEN CHALLENGES FOR THE FUTURE</b>		
43	Discussion Session: Challenges for the Future	585
	Conference Chairman's closing remarks I.H. Elliott	596
<b>APPENDICES</b>		
	Appendix A: Conference glossary of engineering, diving and medical terms, abbreviations and units of pressures (compiled by F.M. Jardine)	601
	Appendix B: List of delegates	634
	Author Index	637
	Subject Index	639
