FEATURES RARE COLOR FILMS FROM NAVY ARCHIVES!

See the deployment of the SeaLab I and Sealab II habitats, and learn about astronaut Scott Carpenter's record-setting stay below the sea. Watch as the mini-submarine Aluminaut, which played a role in the retrieval of a lost atomic bomb off the coast of Spain, demonstrates its proficiency as a salvage tool.

-Color and Black & White films  
-Running time: 120 minutes

DIGITALLY ENHANCED & RESTORED FILMS
