

TEC DEEP DIVER

Manual

Tec Deep Diver

Welcome to the new and exciting world of diving - technical deep diving. You have chosen to pursue the opportunity to go beyond the recreational dive limits, one that many divers will never experience. The knowledge gained and skills learned warrant a level of respect beyond that of recreational diving.

The Tec Deep Diver course incorporates a demanding yet exciting design with DSAT quality material and instruction. Through a balanced mix of independent study, classroom discussion, and surface, pool and open water training exercises, you will acquire the knowledge necessary to become a confident technical deep diver.

It's here you will learn the techniques and procedures required for diving beyond the recreational limits, making planned staged decompression dives, and using multiple gas blends on a single dive. Although you will find this to be one of the most extensive and intensive courses you've taken, it will also be the most exhilarating. So, double up and get ready for the opportunity to explore beyond the limits.

vii	Introduction
xi	How to Use the DSAT Tec Deep Diver Manual
x	Course Overview and Goals
xi	Tec Diver Lingo
1	Chapter ONE: The Foundation
3	Technical Diving's Risks and Responsibilities
10	Equipment I – The Basic Technical Diving Rig
35	Gas Planning I
51	Team Diving I
54	Techniques and Procedures I
60	Emergency Procedures I
64	Thinking Like a Technical Diver I
68	Preview: Practical Application One
68	Preview: Training Dive One

Table of CONTENTS

	79	Chapter TWO: The Framework
	80	Equipment II
	88	Gas Planning II
	101	Thinking Like a Technical Diver II
	103	Team Diving II
	115	Techniques and Procedures II – Decompression and Stage Cylinder Handling
	123	Emergency Procedures II
	130	Preview: Practical Application Two
	131	Preview: Training Dive Two
	133	Preview: Training Dive Three

141 **Chapter THREE: The Structure**

- 142 Equipment III
- 146 Gas Planning III
- 162 Emergencies III
- 167 Techniques III
- 173 Team Diving III
- 176 Thinking Like a Tec Diver III
- 179 Preview: Practical Application Three
- 180 Preview: Training Dive Four
- 182 Preview: Training Dive Five

191 **Chapter FOUR: The Details**

- 192 Equipment IV
- 194 Gas Planning IV
- 202 Emergencies IV
- 210 Thinking Like a Tec Diver IV
- 212 Preview: Practical Application Four
- 213 Preview: Training Dive Six
- 215 Preview: Training Dive Seven

221 **Chapter FIVE: The Refinements**

- 222 Gas Planning V
- 228 Techniques IV
- 230 Emergencies V
- 231 Thinking Like a Tec Diver V
- 233 Mission Planning
- 236 Preview: Practical Application Five
- 237 Preview: Practical Application Six
- 238 Preview: Training Dive Eight
- 240 Preview: Training Dive Nine

245 **Chapter SIX: The Polish**

- 246 Emergencies VI
- 250 Thinking Like a Tec Diver VI
- 253 Preview: Practical Application Seven
- 254 Preview: Training Dive Ten
- 255 Preview: Training Dive Eleven
- 255 Preview: Practical Application Eight
- 256 Preview: Training Dive Twelve

259 **Appendix**
